

St. George's Flower Bank is a voluntary association set up to maintain and conserve the roadside verges of the A369 near to Easton-in-Gordano as a nature reserve.

The site was designated a Local Nature Reserve in recognition of the richness of its flora - typical of unimproved lowland neutral grassland, a category that is increasingly rare.

These wildflowers flourish because of the management - none have been planted.

All the work is done by volunteers who are most grateful for the generous support received from the public and a number of organisations who have helped with significant grants.

Fundraising efforts include:-

- Monthly Walks
- Christmas tree shredding
